ACCESSORIES & WEARABLES

Havaianas Kids Crossbody Bag

CLIENT	YEAR	ROLE
Havaianas	2026	Product Designer

Kids crossbody bag development project for Havaianas. The body carries the rice-grain texture and the embossed logo of the brand's flip-flop soles, with a zip closure, rose-gold hardware and a glitter teddy bear charm.

As a freelance Product Designer, I worked on research, concept development and the product’s 3D model. The challenge was to create the brand’s first kids’ bag, bringing Havaianas’ iconic flip-flop sole into a playful, child-friendly accessory.

Developed at Havaianas in collaboration with cross-functional teams. Licensed intellectual property belongs to its respective owners. All other project rights are subject to applicable agreements.

ACCESSORIES & WEARABLES

Havaianas Wristlet Bag

CLIENT	YEAR	ROLE
Havaianas	2026	Product Designer

Adult wristlet bag development project in partnership with Havaianas. The body carries the rice-grain texture and the embossed logo of the brand's flip-flop soles, with a zip closure, a logo zipper pull and a tone-on-tone wrist strap attached by a clasp.

As a freelance Product Designer, I worked on research, concept development and the product’s 3D model. The challenge was to translate the sole’s texture and logo into a clean, functional everyday accessory for adults.

Developed at Havaianas in collaboration with cross-functional teams. Licensed intellectual property belongs to its respective owners. All other project rights are subject to applicable agreements.

HOME & LIFESTYLE

Disney Christmas Ornaments

CLIENT	COMPANY	YEAR	ROLE
Ri Happy	Global Products	2025	Product Designer

Collectible Christmas ball ornament development project under the Disney license, featuring Mickey & Friends. The project was developed for the client Ri Happy while I was working as a designer at Global Products.

Each clear ball holds a character figure on a colored base, in Mickey, Minnie, Donald and Pluto versions.

As Product Designer, I was responsible for reference research, character style studies and the product's 3D model. The challenge was to keep each character fun and expressive, even in such a small format.

Developed at Global Products in collaboration with cross-functional teams. Licensed intellectual property belongs to its respective owners. All other project rights are subject to applicable agreements.

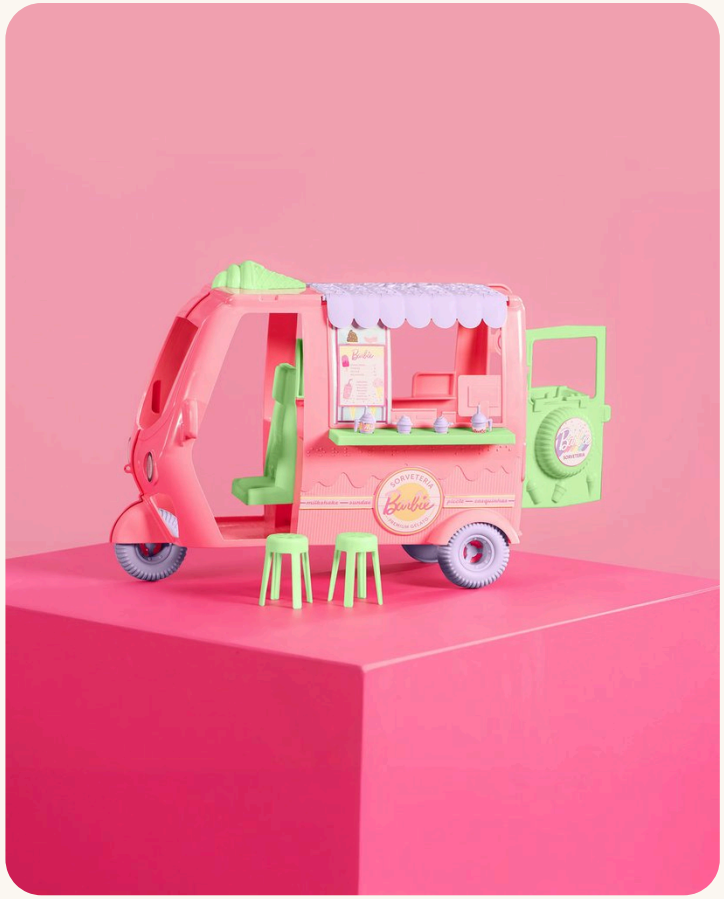

TOYS

Barbie Ice Cream Shop

CLIENT	YEAR	ROLE
Grendene Kids	2025	Product Designer

Development of a playset toy (shoe case) under the Barbie (Mattel) license, carried out within the Design Management division at Grendene.

As Product Designer, I was involved throughout the entire development process, from market research and concept generation to production follow-up and final sample approval. Working closely with multidisciplinary teams, licensors, suppliers, and 3D modelers, I helped translate Barbie's brand identity into a functional, manufacturable, and engaging play experience.

Developed at Grendene in collaboration with cross-functional teams. Licensed intellectual property belongs to its respective owners. All other project rights are subject to applicable agreements.

ACCESSORIES & WEARABLES

Color Backpack

CLIENT	YEAR	ROLE
Grendene Kids	2024	Product Designer

Kids backpack development project under the Barbie (Mattel) license, carried out within the Design Management division at Grendene. The front pouches come in contrasting colors and glitter finishes and can be worn on their own as a belt bag.

As Product Designer, I was involved throughout the entire development process, from market research and concept generation to production follow-up and final sample approval. Working closely with multidisciplinary teams, licensors, suppliers, and 3D modelers, I explored a modular solution: removable front pouches that double as a belt bag, bringing Barbie's identity into a versatile, fashion-forward accessory.

Developed at Grendene in collaboration with cross-functional teams. Licensed intellectual property belongs to its respective owners. All other project rights are subject to applicable agreements.

TOYS

Stitch Pet Shop

CLIENT	YEAR	ROLE
Grendene Kids	2025	Product Designer

Playset (footwear packaging) development project under the Disney license, carried out within the Design Management division at Grendene.

As Product Designer, I was involved throughout the entire development process, from market research and concept generation to production follow-up and final sample approval. Working closely with multidisciplinary teams, licensors, suppliers, and 3D modelers, my challenge was to merge the pet shop theme with the Disney license, bringing Stitch into the product's identity as footwear packaging that becomes a playset.

Developed at Grendene in collaboration with cross-functional teams. Licensed intellectual property belongs to its respective owners. All other project rights are subject to applicable agreements.

TOYS

Disney Tour

CLIENT	YEAR	ROLE
Grendene Kids	2025	Product Designer

Disney Tour is a preschool-focused toy bus inspired by Mickey Mouse, developed under the Disney license within Grendene's Design Management division.

As Product Designer, I was involved throughout the entire development process, from market research and competitive benchmarking to final production approval. My responsibilities included concept generation and refinement, technical specification development, definition of manufacturing requirements, and close collaboration with 3D modelers, suppliers, and cross-functional teams during the tooling, prototyping, and validation stages.

Developed at Grendene in collaboration with cross-functional teams. Licensed intellectual property belongs to its respective owners. All other project rights are subject to applicable agreements.

ACCESSORIES & WEARABLES

Justice League Backpack

CLIENT	YEAR	ROLE
Grendene Kids	2024	Product Designer

Kids backpack development project under the Justice League (DC) license, carried out within the Design Management division at Grendene. Each version wears its hero's suit, with a comic-strip texture molded into the body and adjustable straps.

As Product Designer, I was involved throughout the entire development process, from market research and concept generation to production follow-up and final sample approval. Working closely with multidisciplinary teams, licensors, suppliers, and 3D modelers, the challenge was to give each hero a distinct look within a single product structure, through its suit and a molded comic-strip texture.

Developed at Grendene in collaboration with cross-functional teams. Licensed intellectual property belongs to its respective owners. All other project rights are subject to applicable agreements.

TOYS

Barbie Road Trip

CLIENT	YEAR	ROLE
Grendene Kids	2024	Product Designer

Playset (footwear packaging) development project under the Barbie (Mattel) license, carried out within the Design Management division at Grendene.

As Product Designer, I was involved throughout the entire development process, from market research and concept generation to production follow-up and final sample approval. Working closely with multidisciplinary teams, licensors, suppliers, and 3D modelers, the challenge was to turn footwear packaging into a Barbie camper playset, with an opening roof, doors and accessories that extend play beyond the unboxing.

Developed at Grendene in collaboration with cross-functional teams. Licensed intellectual property belongs to its respective owners. All other project rights are subject to applicable agreements.

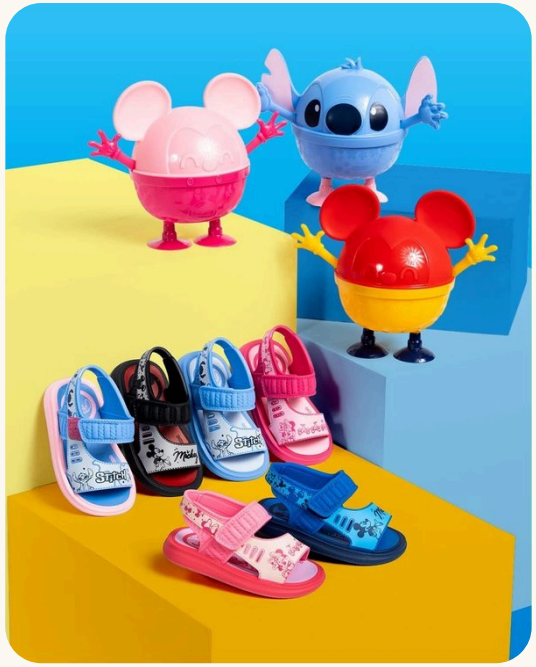

HOME & LIFESTYLE

Disney Lunch Time

CLIENT	YEAR	ROLE
Grendene Kids	2025	Product Designer

Kids mealtime set development project under the Disney license, carried out within the Design Management division at Grendene. Each character opens into a bowl with suction-cup feet and comes with a matching spoon and fork, in Stitch, Mickey and Minnie versions.

As Product Designer, I was involved throughout the entire development process, from market research and concept generation to production follow-up and final sample approval. Working closely with multidisciplinary teams, licensors, suppliers, and 3D modelers, the challenge was to turn Stitch, Mickey and Minnie into a functional, child-safe bowl that makes mealtime more fun.

Developed at Grendene in collaboration with cross-functional teams. Licensed intellectual property belongs to its respective owners. All other project rights are subject to applicable agreements.

TOYS

Disney Baby Car

CLIENT	YEAR	ROLE
Grendene Kids	2024	Product Designer

Preschool toy (footwear packaging) development project under the Disney license, carried out within the Design Management division at Grendene.

As Product Designer, I was involved throughout the entire development process, from market research and concept generation to production follow-up and final sample approval. Working closely with multidisciplinary teams, licensors, suppliers, and 3D modelers, the challenge was to design a Mickey-inspired preschool push toy that also works as footwear packaging, prioritizing stability, safety and ergonomics for little ones.

Developed at Grendene in collaboration with cross-functional teams. Licensed intellectual property belongs to its respective owners. All other project rights are subject to applicable agreements.

Let's create *something together*

Open to new projects, partnerships and creative collaborations.
